Meet Violet, a Spark Scholar who has **developed a passion for app-building** through the variety of units offered through SparkNC. Violet has built a portfolio of impressive projects ranging from crafting immersive video game experiences to designing interactive quizzes and apps. Her skills shine through the varied projects she chose to pursue in SparkNC.

Looking ahead, Violet's aspirations span the realms of **cosmetology and forensic nursing**. Remarkably, SparkNC has seamlessly **integrated into her vision for the future**. Whether considering a digital platform for her cosmetics venture or utilizing problem-solving skills in forensic endeavors, Violet finds SparkNC to be a transformative force shaping her path forward.

Currently engaged in units covering *Makey Makey* circuits, *App Building: Design and Bring Your App to Life Without Code*, and *Gods, Heroes, and Monsters: Mythology in Video Games*, Violet thrives in the creative ecosystem nurtured by SparkNC. Each completed project serves as evidence of her growth and achievement.

Reflecting on her journey, Violet invites others to “embrace the unknown because it holds the potential for your self-discovery and growth”.
